Double Take: The Works of Seward Johnson

If you visited Rowan University sometime between August and November, chances are there might have been a few unfamiliar faces scattered around the campus. From afar, they appeared to be regular people, just paused momentarily gazing at the beauty our campus possesses. Upon closer examination, you would find them to be forever frozen in their expression. These ten sculptures placed around Rowan were created by the artist Seward Johnson and loaned to our university by The Sculpture Foundation, an organization that owns Johnson's entire collection. These sculptures were hand-picked from Seward Johnson's "Man on the Street" collection and strategically placed at various locations on campus. For three months, curious minds walked past these pieces of art, reading the titles on a plaque located just below the actual sculpture. The realism these sculptures possessed could be both seen and felt as attention to detail and realistic textures on articles of clothing are traits of Johnson's work. While these sculptures made a temporary home at our campus, tours were offered allowing visitors to walk around and learn more about the sculptures, why they were here, how they were made, and also about Seward Johnson.

Give us Your Best Double Take!

While the sculptures were visiting Rowan, there were several different forms of student involvement here on campus. The pictures featured on the left page actually came from a photography class integrating the sculptures into their lesson plan! A photograph contest based off of the name of the collection visiting Rowan University, Double Take: The Works of Seward Johnson, featured student, faculty, and visitor participation. Participants were asked to take a photograph of their best “Double Take.” If you submitted your picture, it was then voted on by a panel of staff members and gave you a chance of winning a gift card! This inspired all sorts of creativity; from putting Rowan and Phillies gear on the sculptures to even sneaking in a kiss on the cheek. We even had a couple of students dress and paint themselves like the sculptures and strike a similar pose as a performance piece (featured in the middle picture). Even though their stay was limited, the three months the sculptures visited truly made an impression on everyone that visited Rowan University!

Barnes & Noble

New to Rowan University this year; a 37,000 square foot Barnes & Noble bookstore. This beautiful building is only the second collegiate superstore in New Jersey. It is the first major retail store to open on Rowan Boulevard and marks a new step in that development project. Stocked fully with everything you would find in a regular Barnes & Noble, this store has a slight "brown and gold" spin to it. From pictures of Rowan University from previous years, to an entire section in the store dedicated to Rowan merchandise, you would never know this store is actually considered off-campus. A great new place to pick up your supplies, a new book, or relax with friends over a nice cup of Starbucks coffee, Barnes & Noble is a beautiful addition to our campus.

Who We Are

A Look to the Fu

It is certainly an exciting time to be here at Rowan University. Our Camden campus is growing at an incredible speed as the Cooper Medical School of Rowan University (featured on the right page) is expected to hold its first classes in 2012! Rowan Boulevard has continued its expansion as new construction sites are popping up in several locations.

I would like to thank all of the people that helped me produce the 2011 edition of Rowan University's Yearbook, The Image. Ed Ziegler, thank you very much for being my advisor. Frank and Emmy, you were always there for me, answering every question and solving every problem I came across. Morgan, I could always count on you to go out of your way and take fantastic photographs. I appreciate your dedication. I would also like to thank Mrs. Cuddy. Her Publication Layout and Design course as well as her personal advising inspired me to accept the position as Editor of The Image and produce the book you are currently reading! While it was certainly a lot of work, designing this year's publication was truly a lot of fun and a great experience. Our campus is growing before our eyes, in more than one way, and I made every attempt to document each change. It is absolutely my honor to be able to provide our graduates with a book that, in years from now, they will be able to flip through the pages and remember what Rowan University was like in the year they graduated, 2011.

To all of our seniors, be proud of what you have achieved here at Rowan University. Your hard work and dedication has paid off in the form of something larger than just a simple piece of paper saying your name and degree; opportunity. You have opened the door to a brighter future for yourself and that is commendable. The experience you have gained from your professors, friends, and just life in general here at Rowan will truly be unmatched. At one point or another, you all dreamed of someday graduating college. That dream has now come true and it is time to pursue other aspirations. It is important that you realize what the definition is of the word that you have seen in countless e-mails, pasted on signs all around campus, and printed on the pages that you flipped through on your graduation day; commencement. Commencement is the beginning of something new. You are all starting a new chapter in your life and Rowan University has supplied you with a pen to write your future with.

Best of luck to you all, class of 2011, wherever life may take you.

Our truest life is when we are in dreams awake.

Thank you,
